SUMMARY

Motivated IT Graduate and System Developer with hands-on experience in system development and technical troubleshooting. Specialized in developing end-to-end web applications utilizing PHP and MySQL, with additional expertise in Google Apps Script automation. Adept at bridging the gap between UI/UX design and backend functionality. Committed to delivering high-quality, scalable code and contributing to collaborative project success.

TECHNICAL SKILLS

- **Web Development:** HTML5, CSS3, PHP, Google Apps Script
- **Database Management:** MySQL (Relational Database Design, CRUD operations)
- **Version Control & Tools:** Git, GitHub (Branching, Pull Requests, Repo Management)
- **Design & Prototyping:** Figma (UI/UX Wireframing), Basic Graphic Design
- **Productivity Suites:** Microsoft Office 365 (Excel, Word, PowerPoint)

PERSONAL SKILLS

- Excellent in written and verbal skills
- Adept at problem solving
- Strong organizational skills and keen attention to details
- Punctual and reliable
- Highly organized and efficient
- Ability to work independently and as part of a team

RELEVANT EXPERIENCE

IT Intern | PCN Promopro Inc. *December 2025 – March 2026*

- Developed a PCN Equipment Inventory System using PHP and MySQL to help the company track their equipment and resources more efficiently.
- Created a Time In/Out Attendance System using Google Apps Script to automate the tracking of employee shifts and records.
- Handled System Maintenance and hardware troubleshooting for office computers to ensure all workstations were running smoothly.
- Performed general data entry, encoding, and digital record management.
- Provided Technical Support alongside the IT team, helping resolve network issues and assisting employees with technical problems.

Student Officer (Treasurer & Batch Representative) | Information Technology Students Society (ITSS) *2024 – 2026*

- Managed organization funds, tracked budget allocations, and maintained accurate financial records as Treasurer for all departmental events and initiatives.
- Represented the 3rd and 4th-year IT student body, serving as the main bridge between upperclassmen and faculty to address student concerns.
- Created professional PowerPoint presentations and promotional event posters, ensuring clean layouts and clear visual communication for campus IT activities.

TECHNICAL PROJECTS

OnSmile: A Dynamic Web Based Solutions for Dental Enhancements Operations (Capstone Project)

- Tools: PHP, HTML, MySQL, JavaScript
- Built a full-stack website for dental clinics to handle patient records and digital bookings. This system helps staff avoid double-booking and keeps patient history organized in one place.
- Awarded First Runner-Up for System Development at the 13th SCS Interbranch Colloquium and University Research Festival 2026.

PCN Asset Inventory System (OJT Project)

- Tools: PHP, MySQL, HTML, JavaScript, Figma (Basic Wireframe)
- Developed this system during my internship at PCN Promopro to track company equipment. It allows the IT team to assign hardware to employees and generate reports on current stock levels.

PCN Asset Inventory System (OJT Project)

- Tools: PHP, MySQL, HTML, JavaScript
- Developed this system during my internship at PCN Promopro to track company equipment. It allows the IT team to assign hardware to employees and generate reports on current stock levels.

PCN Time In/Out: Attendance Tracking System (OJT Project)

- Tools: Google Apps Script, HTML, JavaScript
- Created a web-based tool integrated with Google Sheets to monitor employee attendance in real-time. It simplified how the company records shifts and generates attendance reports.

EDUCATION

Bachelor of Information Technology

Aug 2023 - June 2026

Arellano University Plaridel Campus

CERTIFICATIONS & TRAININGS

- Introduction to Cloud Computing Webinar - USAID [August 24, 2024]
- TechTIPS 022: Hack-Proofing Your Digital World Webinar - DOST [August 30, 2024]
- Programming Basics - GreatLearning [September, 2024]
- Introduction to GitHub Actions - DICT [September, 2024]
- How to Counter-Act when Hacked Webinar - DICT [October 15, 2024]
- AI Ethics and Governance - USAID [October 19, 2024]
- Responsive Web Design Certification- freeCodeCamp [October 21, 2024]
- Querying Fundamentals with MySQL Essentials For Beginners - DAP [October 31, 2024]
- Introduction to Modern AI - CISCO [January 9, 2025]
- MOS: Excel Associate Certification - Data Analytics Philippines [February 10, 2025]
- Foundational C# with Microsoft - freeCodeCamp [May 1, 2026]

ADDITIONAL INFORMATION

- **Languages:** English, Tagalog
- **Awards:** Dean's Lister
